PROFESSIONAL EXPERIENCE

Hue Medical Holdings

Operations Manager

Houston, TX
May 2026–Present

- Serve as primary liaison with outside legal counsel on contracts, compliance, and risk matters related to new technology initiatives
- Evaluate and advise leadership on adoption of new technology solutions to support scalability and operational efficiency
- Designed and developed the company website, strengthening brand presence and streamlining external communications
- Travel on-site across facilities to assess workflows and identify opportunities to standardize processes and improve cross-facility efficiency

University of Michigan Medical School

Undergraduate Research Assistant

Boston, MA
December 2025–May 2026

- Design and execute drug synergy analyses identifying optimal combinations using Loewe scores across genomics, metabolomics, and transcriptomics datasets
- Develop customized Python pipelines to analyze 5,000+ drug-gene interactions in ovarian cancer cell lines OVCAR-4 and OVCAR-5

Link Lab at Northeastern University

Undergraduate Research Scholar

Boston, MA
June 2025–Jan 2026

- Analyzed multi-variable datasets encompassing 3,500+ data points across 120 postpartum participants to identify correlations between diastasis recti severity and functional outcomes
- Built automated data visualization pipelines in Python to generate 8 interactive dashboards tracking recovery trajectories and treatment efficacy patterns

Beats by Dre

Market Research & Branding Strategy Intern

Culver City, CA
May 2024–July 2024

- Contributed to go-to-market strategy for two high-profile launches — the return of the Beats Pill and the Pro X Kim Kardashian collection — synthesizing consumer research across 1,000+ participants into actionable recommendations presented to senior leadership
- Analyzed Gen Z purchasing behaviors and brand perception data to identify emerging market opportunities, directly influencing Q3 branding initiatives

Nutex Health Inc.

Business Strategy and Operations Intern

Houston, TX
May 2021–Aug 2022

- Conducted healthcare market analysis and competitive research, identifying growth opportunities and market positioning insights

PERSONAL PROJECT

Athlete Injury Risk Prevention Dashboard

November 2025–January 2026

- Developed a web dashboard predicting athlete injury risk using evidence-based training load analytics to generate 0-100 risk scores with actionable load management recommendations
- Built multi-factor risk model combining sports medicine metrics (ACWR, load spikes, soreness) weighted by clinical research to identify high-risk periods across 20 athletes over 120 days
- Designed system with real-time monitoring featuring color-coded risk KPI status and comparison tools
